

MAPPING - AERIAL PHOTO-INTERPRETATION REMOTE SENSING - GEOGRAPHIC INFORMATION SYSTEMS

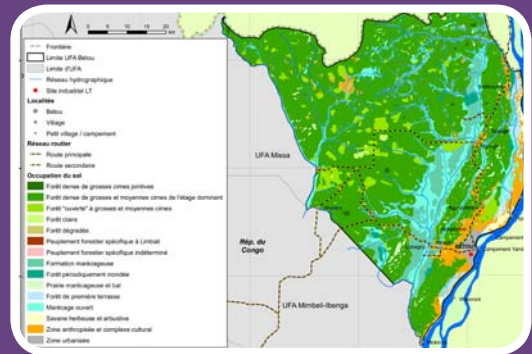

DATABASES AND GIS

- ★ Geographic Information Systems (GIS)
GIS cartographic databases
- ★ All types of geographical data
- ★ Geostatistical processing

SATELLITE IMAGERY

- ★ Processing and digital interpretation of satellite imagery (SPOT, LANDSAT, radar technology,..)
- ★ Aerial photography interpretation

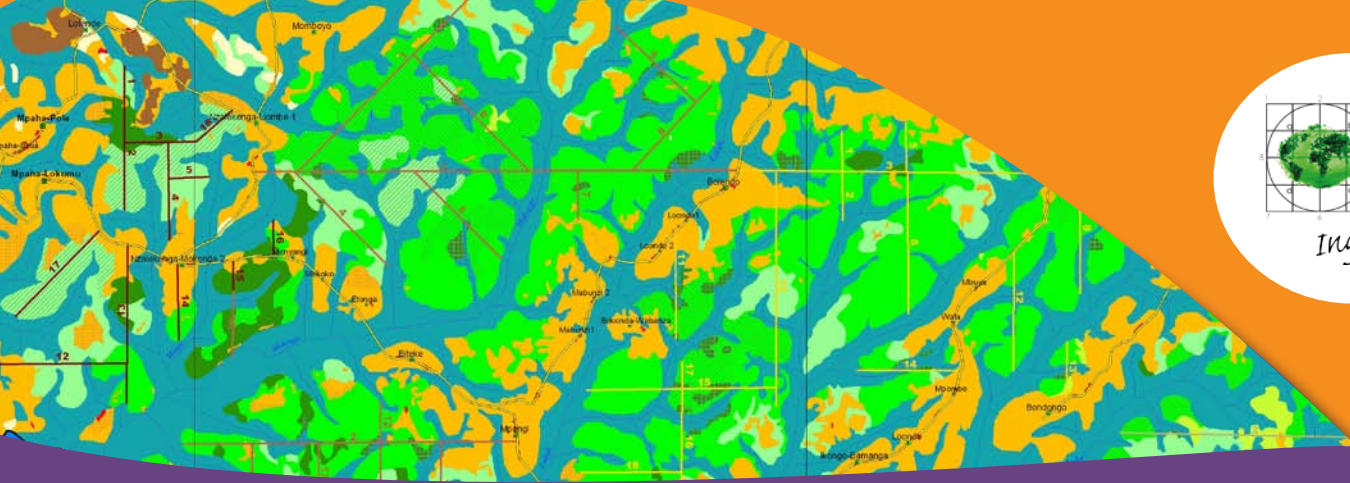

FOREST MANAGEMENT AND FOREST INVENTORY

- ★ Production of thematic maps applied to forest management, including forest stratification maps
- ★ Use of a specific GIS combined software for inventory data processing, developed by FRMi, Forest Decision Program®
- ★ Geo-referenced databases dedicated to the monitoring of natural and forest resources

FOREST AND ENVIRONMENTAL ENGINEERING SERVICES - FIELD PRESENCE IN AFRICA SINCE 1987 - MORE THAN 500 PROJECTS CARRIED OUT IN MORE THAN 80 COUNTRIES - OUR CLIENTS : STATES, PRIVATE COMPANIES, INTERNATIONAL FUNDING ORGANIZATIONS, NGOs - FRENCH BASED GROUP - SUBSIDIARIES IN AFRICA AND SOUTH AMERICA

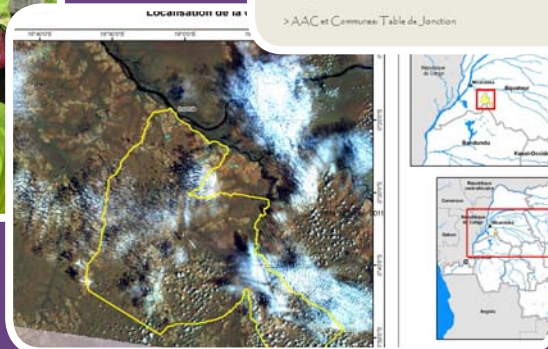

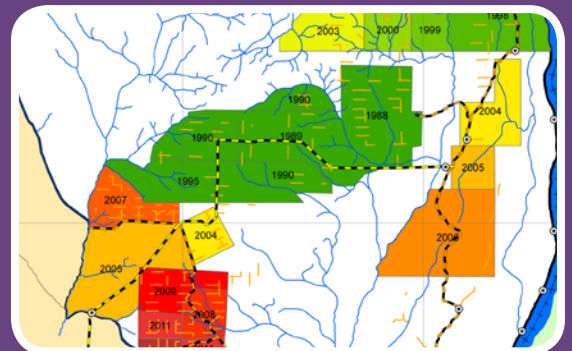

ORGANIZATION, PLANNING & MANAGEMENT

- ★ Thematic maps applied to rural and natural resources development, including land-use maps, potentiality maps, biodiversity distribution maps
- ★ Environmental Sensitivity Atlases
- ★ Mapping of forest cover dynamics and evolutions

TRAINING - AWARENESS RAISING

- ★ Technical mapping training applied to sustainable forest resources management
- ★ Training of local mapping technicians in management units
- ★ Transfer of mapping production methods for forest stratification and inventories
- ★ Set up of mapping units and staff training
- ★ Photo-interpretation and forest mapping manuals
